

EOAlgo< EOT >

paradiseo::smp::Scheduler  
< Dummy, boost::numeric  
::interval\_lib::policies >

scheduler

paradiseo::smp::MWModel  
< EOAlgo, EOT, Policy >

```
graph LR; MWModel[paradiseo::smp::MWModel< EOAlgo, EOT, Policy >] --> EOAlgo[EOAlgo< EOT >]; MWModel -.- scheduler --> Scheduler[paradiseo::smp::Scheduler< Dummy, boost::numeric::interval_lib::policies >];
```

The diagram illustrates the relationships between three classes. A solid blue arrow points from the `paradiseo::smp::MWModel` box to the `EOAlgo` box. A dashed purple arrow, labeled "scheduler", points from the `paradiseo::smp::MWModel` box to the `paradiseo::smp::Scheduler` box.
